Assistant Professor

Submitted by Dustin Liang on Wed, 09/19/2018 - 13:28

The Department of Chemistry at Stanford University invites applications for a tenure-track Assistant Professor in Chemistry. Stanford Chemistry faculty address the most important questions of the 21st century by leveraging cross-disciplinary synergies to revolutionize scientific knowledge, educate future leaders, and build a collaborative scholarly community that advances fundamental chemistry and helps us to solve our increasingly complex health, energy, and environmental challenges.

Candidates from all sub-disciplines are encouraged to apply. Areas of interest include but are not limited to organic, inorganic, physical, biophysical, or theoretical chemistry. Applicants will be expected to teach courses at both the graduate and undergraduate levels.

Applicants must post a cover letter, a curriculum vitae that includes a list of publications, a teaching statement, and a statement of current and future research interests, along with three reference letters. All materials must be submitted electronically to Academic Jobs Online. The committee will begin reading applications on October 10, 2018, but may consider files received after this date. Interested individuals should apply online to:

AcademicJobsOnline
https://academicjobsonline.org/ajo/jobs/11624

The appointment will begin on September 1, 2019. Email inquiries and questions may be directed to Amy Rutherford (amyruth@stanford.edu) or by mail to Faculty Search, Chemistry Department, 333 Campus Drive, Stanford, CA 94305-5080.

Cluster:
Natural Sciences

Department:
Department of Chemistry
