Appointments and Promotions Committees

The Appointments and Promotions Committees in H&S are among the most important committees in the School. Each Senior Associate Dean appoints a cluster Appointments and Promotions Committee, comprised of six faculty members from the academic cluster. Each cluster-based A&P Committee considers every case for tenure (both internal promotions and new tenured appointments), as well as continuing term appointments in the non-tenure line and for Senior Lecturers. The task for the A&P Committees, and that of the H&S deans, is to apply the established criteria outlined in the University's and the H&S Faculty Handbook, together with their best judgments, to reach decisions about the cases before them. For further information about the A&P Committees, contact Sohaila Tofig, Faculty Affairs Officer, by email at sohaila@stanford.edu or by phone at (650) 724-8928.

**University Advisory Board**

The University Advisory Board, an elected body of the Academic Council, reviews all recommendations for appointments, promotions, reappointments and dismissals, and for proposals for the creation and dissolution of departments. A detailed description of the role of the Advisory Board is provided in Chapter VI of the Articles of Organization of the Academic Council. The 2017/18 Advisory Board members on the H&S faculty are:

- Karen Cook (Sociology)
- Martha Cary (Biology)
- Gabriella Safran (DLCL)
